

## : Parks and Trails Report

The Parks and Trails committee is looking at putting a Gazebo style building at the Mill pond. This can be used for the annual Scott Brow Sportsman Club Trout Derby, small weddings, family picnics etc.

The estimated cost for this is around \$25000.00 with parts and labor.

If it is approved by the council, we could offset some of the cost possibility by renting for weddings and other events. Like the one at the Marina.

I would like to thank everyone's input who attended our meeting.

No further items have been brought to the committee's attention at this time.

Mike Stoffel
