
Parks and Trails

This is an update on what we discussed at our monthly meeting. We talked about a possible purchase of a new trail dump vehicle to help with hauling wood chips for the trail system.

Chris McCann suggested that the DPW staff use the one at the golf course. It was agreed that this was a good idea. Thus saving the Village several thousand dollars.

The committee is working on a trail map brochure that can be obtained at several businesses in our Village. For our Visitors to our area and our residents.

Sincerely
Parks and Trails Committee
