Village of Northport
Annual and Commercial/Livery Boat Launch Permit
Rules & Guidelines

1. This annual permit is WATERCRAFT SPECIFIC for the registration # indicated on this application. It may not be used with alternate boats without re-registering the permit.
2. The permit must be displayed in the driver's door window of the towing vehicle.
3. Dock tie-up should only be used for boarding passengers. Loading equipment should be done prior to launch if at all possible.
4. Please have your boat prepared to launch prior to entering the launch ramp area.
5. Be courteous to other boaters. Please clear the launch ramp area as soon as possible to allow other boaters to access the ramp. Avoid lingering in the launch ramp area to load or unload equipment.
6. The launch ramp may be used by area law enforcement and/or emergency services vehicles. If emergency personnel approach the ramp from land or water, please clear the area for their priority use.
7. The cleaning of fish and disposal of remains in the trash is STRICTLY PROHIBITED in the Marina, adjacent parks, or parking areas.
8. The permit will be valid for the period from April 1st of the permit year until the following April 1st. Weather will dictate when the launch ramp skid pier will be installed at the beginning of the season and removed at the end of the season.

I have read and agree to the guidelines and understand that violations may result in the revocation of this permit and loss of launch ramp privileges:
