

**VILLAGE of NORTHPORT**

**Waterfront Committee**

**Regular Meeting via Zoom**

**May 18, 2021 1 PM**

**ROLL CALL:** Cook, Harper, Gremel

Staff Present: Edmondson, Scott, Rosemurgy, Holton

**PUBLIC COMMENT:** None

**DISCUSSION/ACTION ITEMS:**

1. Marina Parking Lot *grant project* with Pat Machin: Pat Machin presented a minimal approach, middle approach, and maximum approach to correcting the many problems with the marina parking lot. Each additional approach addressed more problems. Many issues ranging from repaving, adjustments to slopes, regrading, lighting, stormwater improvements, adding utilities, boat ramp repair, and landscaping. A sidewalk to route people crossing the bridge away from the busy parking lot and then along the creek up to Rose Street. The committee needs to identify what is needed from the list and from that determine costs. A grant will then be applied for once a final plan is established. This is on track for a 2022 project. For now, the current parking lot will be patched and coated by Ace Sealing.

The parking availability problem, a perennial problem, was also discussed with many ideas tossed around. This will be an ongoing discussion.

2. The Marina is now open for the 2021 season due to the very hard work by our Harbormaster, Bill Rosemurgy, with help from our Assistant Harbormaster Dan Brown.

3. The Harbormaster supplied another very complete report that can be viewed as part of these minutes.
4. Current issues that need a fix include many things on the Harbormaster's list to do in the next month. An immediate problem is replacing the posts that hold fire extinguishers and life rings on C Dock that were lost during the work done on C Dock. An electrical hazard sign is needed at the beginning of C Dock to meet code.

**PUBLIC COMMENT:** None

**ADJOURNMENT:** A motion was made by Mr. Harper and supported by Mr. Cook for adjournment.

**ROLL CALL VOTE:** YEAS (3) NAYS (0) Motion Passed. Adjournment at 2:20 PM
