

An overview of how our partnership works

What Aqua will provide...

- Fund all hardware
- Provide and Fund all Infrastructure including connection costs
- Fund all operational costs including service & repair
- Remove all hardware and make good at the end of the agreement

Aqua...

- Cover the cost of electricity delivered to the customer
- Pay you a share of the profits
- Pay you a site fee

Aqua...

- Ensure that the charger(s) remain serviced, operational & available
- Hold necessary insurances
- Gain all necessary consents for the provision of services

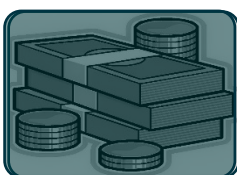

Aqua...

- Provide world class 24/7 customer care
- Provide active fault monitoring to ensure uptime of your charger
- Ensure our chargers work with current & future E-Boats from all vendors
- Operate a "Pay As You Go" service to end customer

What we ask of you ...

- Grant a lease for 20 years
- Grant Aqua access to the site for maintenance when required
- Grant us right of first refusal if you wish to expand your EV charging capability
- Assist us in securing permits & consents required by local regulation
- Promote our services & facilities on your website & social media (if applicable)

You...

- Receive a share of net profits
- Receive an annual site fee
- Have the right to terminate the agreement

Please refer to our Charging Partnership Agreement for details
