We had a nice discussion with Lisa Drummond and Janet Crane, from the Northport Performing Arts Center, about Music in the Park. We talked about all the trash that is left that the staff has to pick up the next day. We asked Lisa and Janet if they had volunteers that might be able to help clean up the park after the music is done. We also talked about non-boaters trying to use the boater's bathroom. They will be glad to announce, to the public, where the correct bathrooms are, and will ask everybody to pick up their trash before they leave. They would like to see extra trash cans set out on the night of Music in the Park. We explained that this would still mean the staff would have to pick up extra garbage the next morning. The other thought was could we try to recycle more, to include pizza boxes. Overall, it was a very good discussion!

Second Public Comments- None
