

Waterfront Committee  
Meeting Minutes  
April 18, 2023

Members present: Cook, Harper

Absent: Peterson

Staff present: Rosemurgy, Edmondson, Scott, Holton

Public: Laura Cavendish, Karl Wizinsky

The meeting was called to order at 1:01pm

Additions to the Agenda – None

Public comments- Laura Cavendish questioned about the Marina parking lot contract. She wondered if the lighting for the mural had been removed. Karl Wizinsky asked if there were penalties for not completing the Marina parking lot on time.

**Parking Lot Update** – Chris Holton gave us an update on the Marina project. During the pre-con meeting it was decided that the 28' x 80' parking area was removed from the contract. It would give us better drainage and the green space would be more attractive. This area was designated for vendors. To answer Laura Cavendish's question, the mural lightning has been removed from the contract. The new launch ramp has been built and waiting to install.

**Harbormaster Report** – We received the same report that the council received at the last meeting. Also NMC will have a research vessel in the marina for a while this summer. Bay Harbor shakedown cruise will be in June. The Harbormaster also asked if the sand at both beaches could be screened. The Marina might have a problem fueling small boats and jetski's.

Second Public Comments- Laura asked about pavers in the marina parking lot.

Motion to adjourn was made by Trustee Harper and seconded by Trustee Cook.  
All ayes.

Meeting was adjourned at 1:25pm
