Leelanau County received a $250,000 assessment grant from EPA to use for assessment of sites with contamination or sites suspected to have contamination. The Leelanau County Brownfield Redevelopment Authority (LCBRA) is administering the grant on behalf of the County.

As part of the work to prepare a list of any potential sites, I'm reaching out to gather information from each township and village on your historic dump site(s). It would be appreciated if you can provide me with any information on the site(s) such as: dates it operated, when it was closed, what kind of materials were accepted, location/address, and who owns the site now. Even if this grant is not used for assessment of one of these sites, we would still like to know the location of all these former dumps.

Also, if you have any government owned sites that may need assessment work (Phase I, Phase II environmental assessment, BEA, or Due Care Planning), please let me know.

Thank you for your assistance and feel free to contact me with any questions.

Sincerely,

Trudy J. Galla, AICP, Planning Director &

Director of the Leelanau County Brownfield Redevelopment Authority
