Ms Scott,

We are writing in opposition to the variance requested by John and Paige Hanley for the property at 228 E 5th Street, Northport. If the owners were asking for a foot or two of variance due to an oversight in planning, that would be one thing. But the proposed covered porch would encroach across more than half of the 20 foot setback would disturb the nature of the neighborhood. If this variance is approved, it would set a precedent for other homeowners to disregard setbacks and soon we could have a 9 foot front setback on 5th street.

Thank you,

Joe Thatcher
