COMMUNITY LIAISON REPORT

October 13, 2022

Consumers Energy has been installing the trial dimmable lights. Please keep the Village staff apprised of any feedback you may receive so we can choose the best possible dimmer for all of the lights.

An MDOT Permit for the Homecoming Parade road closure has been submitted and approved for October 8, 2022 between 11AM and 12PM.

The Halloween hot dog event is fast approaching. In the packet is the letter from Mitten Owner Chris Andrus asking the village to continue to hold our events at The Mitten Brewery? I ask the council to make a recommendation to continue at the brewery or return to the Village parking lot tonight so we can begin to advertise. We also need to determine if the council wishes to keep the same work stations during the event as last year.

Respectfully submitted,

Cindy Edmondson,

Community Liaison
