Harbormaster's Report to the Village Council

December 2022

What I've been up to:

I've been gone for most of the month of November, however these are the items on the immediate horizon at the Marina:

1. **Marina WiFi & Surveillance Cameras** – We will need to find a new supplier of IT services (including WiFi monitoring, Dock House internet connectivity, and security cameras for the Marina & parks) for 2023. I've received one proposal that the Waterfront Committee will be reviewing over the next couple of months.
2. **Annual Review with KAM Boat Yard** – I'll be scheduling my annual review with the Northport Bay Boat Yard in the next couple of weeks. We'll be reviewing this past season's spring and fall activity and establishing the annual reimbursement to the Marina.
3. **2023 Summer Project List** – I've started work on a project list ad cost estimates for next season and for budgeting. Thankfully, the list appears to be getting smaller and smaller each year, so I know we're making progress getting the Marina where it needs to be.
4. **Annual Seasonal Slip & Waiting List Renewals** – Annual seasonal slip renewals will go out the first week of January. Waiting List renewals will probably be the following month. I've developed a pretty solid automated process, so this should go smoothly.

Bill Rosemurgy, Harbor Master
