2024 Year in Review
Highs & Lows

Lows:

1. Geese
2. Reduced revenue was a stress all season
3. Kids jumping off the Wall
4. Dealing with Home City Ice

Highs:

1. Geese
2. The mural was installed after being missing last summer
3. New swimming area markers
4. The laundry room floor was epoxied
5. Boat launch revenue was significantly up over previous years
6. New Boardwalk trash cans for "Bagged Trash Only" was very successful
7. Cleaner boater's bathrooms. No dirty bathroom issues.
8. "Blessing of the Fleet" event
9. Bollards installed on E-dock
10. No serious incidents during the season. There were a couple of fuel incidents, however, they were handled exactly according to procedure and the procedure works.
11. Clean-up after "Music in the Park"
12. Dockhands – I had the best crew ever this summer. They're well-trained, courteous, skilled, experienced, and friendly. I felt completely comfortable leaving the Marina in the hands of my Assistant Harbormasters. I heard compliments from boaters all season long about the high quality of my staff.
13. Dockhand scheduling this year was much easier than previous years. Scheduling is the least favorite part of my job. This summer I prepared monthly schedules so everyone knew well in advance and we could handle changes much more easily.
14. We had three new seasonal boaters this year. All three were wonderful additions to our seasonal slip-holder family.
15. Seasonal slip-holder map. I put together a map of all our seasonal boaters. It was extremely well-received and helps to build our "seasonal family".
16. Support of the whole DPW crew
17. Support of the entire Office crew
18. Support of the Village Council
