Subject: Trustee Election
To: <manager@villageofnorthport.net>

Dear Jim,

I believe the Trustee seat rightfully shifts to me if Edwin Dean is shown to be a nonresident.

Let me recount that:

1) I have been a resident of Northport since April of 2020, renting a home on 4th Street.
2) I served as a Village Trustee in the 1990's when I owned a large home on 6th Street with my late husband after he retired from the USCG. We homeschooled our three sons in the 10 years we lived there.
3) I also served as Vice-Chair of the Township Planning Commission in that era.
4) While on Council, I helped secure the access to the 4th Street road-end in court and facilitated the planting of trees in front of Tom's with private tree donations and village groundwork.
5) My lengthy career as an architectural engineer on large complicated projects and project manager in Boston on projects over $20M (2001 dollars) gives me helpful fiscal experience.
6) I am a graduate of the University of Michigan, College of Architecture and Urban Planning, and Portland State University with a MS in Technology and Engineering Management. I also studied law at Indiana University.
7) Most recently I was employed by a Leelanau Foundation as Development Director.
8) As a fiscal and social conservative, local environmentalist, I speak for voices that deserve to be heard at the Village Council.

I am unable to attend tomorrow's meeting, and believe the issue may not yet be resolved, However, I wish to express my heartfelt desire to serve the Village again as Trustee.

Please share this with the Village President and Trustees,

Thank you,
Alexis
