Hello Will. Allan Dalzell here and because I just finished reading Abigail Charter's letter I decided to write to let you know that I think Buster Dame would be very disappointed to know that there is no athletic activity going on at the ball field and would be very proud to see that land used for housing that working people, like himself, could afford and we could honor the whole Dame family, who were all hard workers, by naming the area the Buster Dame Residential Area.

If you so desire, you may use my thoughts as your own. Have a good meeting. Allan
